

# HTML Elements

[Home](#) [Headers](#) [Table](#) [List](#) [Text formats](#) [Blockquotes](#)

Pay attention to h1 tag inside section element. Font-size for h1 is the same as font-size for h2, because we have to use only one h1 on the page, and it is commonly used inside header

## Header 2

### Header 3

#### Header 4

# Text formats

## Article Text

Article title

Article description

## Preformatted Text

```
Text
in a pre element
is displayed in a fixed-width
font, and it preserves
both
spaces and
line breaks
```

## code

```
.wrapper {
display: flex;
vertical-align: middle;
justify-content: center;
}
```

## Blockquotes

Let's keep it simple. Italics are good to help set it off from the body text. Be sure to style the citation.

*"If you go back a few hundred years, what we take for granted today would seem like magic-being able to talk to people over long distances, to transmit images, flying, accessing vast amounts of data like an oracle. These are all things that would have been considered magic a few hundred years ago."*
